

Srikanth Yaswada

(Angular Developer | MEAN Stack Developer)

Email id: srikanthyaswada903@gmail.com

Mobile: +91 9505294218.

Professional Summary

- ✓ Total 3+ years of industrial experience in Angular, Bootstrap, JavaScript, jQuery, Html, CSS, Nodejs, Angular Material in development of frontend/UI portals.
- ✓ Experience in Angular controllers, directives, service resources, routings and events.
- ✓ Experience in DOM manipulation using JavaScript, jQuery, and Angular.
- ✓ Building self-contained, reusable, and testable modules, directives and components.
- ✓ Creating custom modules and components which extend the elements and modules of core Angular
- ✓ Designed and developed the application using Angular framework along with HTML5, CSS3, TypeScript, JavaScript, Bootstrap, Node.js, NPM.
- ✓ Implemented client-side User-friendly validations in forms using TypeScript.
- ✓ Worked on the REST/Web API to create the services and used in Angular HTTP service calls and bind data.
- ✓ Used Angular as Framework to create a Single Page Applications (SPA's) which can bind data to specific views using CSS, SCSS, Bootstrap, Angular Materials and Angular.
- ✓ Knowledge of git version control system and GitHub and Knowledge of git Commands.

Technical Skills

- ✓ Web Technologies : HTML5, CSS3, SCSS, Bootstrap
- ✓ Frameworks : Angular, Node.js, jQuery
- ✓ Programming Languages : JavaScript, TypeScript
- ✓ IDE : Notepad++, Visual Studio Code
- ✓ Version Control System : GIT
- ✓ Work Management Tool : GitHub, JIRA, Bitbucket
- ✓ Operating Systems : Windows, MacOS
- ✓ Database : MongoDB, MySQL

Work Experience

- ✓ Worked as an **Angular Front-End Developer** in **VITA TECHNOLOGIES**, IT Tower, Karimnagar from **MARCH 2020-Present**.

Education

- ✓ Graduated in **Bachelor of Technology** from **Jyothishmathi Institute of Technology and Sciences** (JNTU-HYD), Karimnagar — with **Aggregate 72%**.

Projects

Project -1: Medical POS

A modern medical software solution designed for medical shops and agencies to automate daily tasks, ensure paperless workflows, and provide instant reporting at a budget-friendly price

- ✓ Developed user interfaces with Angular 13, HTML5, CSS3, Bootstrap, and Angular Material.
 - ✓ Built and integrated application features using Angular, TypeScript, JavaScript, Node.js, and MongoDB.
 - ✓ Implemented form validations using TypeScript and Angular.
 - ✓ Designed REST APIs and utilized Angular HTTP for seamless data binding.
 - ✓ Performed CRUD operations for the Admin Module and Node.js API integration with MongoDB
-

Project-2: Coconut Juice Bar

A franchise management application for Coconut Juices, Thick Shakes, and Ice Creams. The admin module manages employees, salaries, schedules, product details, sales, income, and reports.

- ✓ Built responsive UI templates using Angular, HTML5, CSS3, SCSS, Bootstrap, Ng-Bootstrap, High charts, Data Tables, Ag-Grid, and Angular Material.
 - ✓ Developed CRUD operations for Employee and Product Management modules.
 - ✓ Designed and implemented sales, income, and expense reports.
 - ✓ Created REST APIs and integrated them with Angular HTTP for data binding.
 - ✓ Performed CRUD operations using Node.js APIs and MongoDB connectivity.
-

Project - 3: Mojo Talkies Website

A celebration theatre management system with Admin and User modules, built using the MEAN stack, for managing events, bookings, and celebrations.

- ✓ Developed responsive Admin and User interfaces using Angular, HTML5, CSS3, SCSS, and Bootstrap.
- ✓ Built features for event and booking management, including CRUD operations for Admin and User modules.
- ✓ Integrated REST APIs with Angular HTTP for real-time data management.
- ✓ Implemented backend functionality using Node.js and MongoDB for content and booking data.
- ✓ Deployed the application to a production environment ensuring smooth operation and scalability.
- ✓ Optimized application performance and responsiveness across devices.

Project - 4: Water Purifier Shop Management

A comprehensive management system for handling inventory, customer details, and sales data to enhance operational efficiency.

- ✓ Designed and developed CRUD operations for inventory and customer management.
- ✓ Generated detailed sales reports to assist in business analysis and decision-making.
- ✓ Streamlined workflows, improving operational efficiency and reducing manual efforts.
- ✓ Utilized the MEAN stack for application development and ensured a user-friendly interface.
- ✓ Ensured data integrity and scalability for growing business needs.

Project- 5: E-Commerce Website

Description: Developed a fully functional retail platform aimed at enhancing the online shopping experience for customers and streamlining business operations for administrators.

Technologies Used: Angular, Node.js, Express.js, MongoDB, HTML5, CSS3, Bootstrap, TypeScript

Roles and Responsibilities:

- ✓ Designed and implemented a product catalog with dynamic filtering and search functionality.
- ✓ Built a responsive and user-friendly shopping cart with seamless navigation between pages.
- ✓ Integrated secure payment gateways, ensuring data protection and transaction reliability.
- ✓ Developed an admin panel for product management, order tracking, and customer data handling.
- ✓ Implemented data visualization for sales and performance metrics using charts and graphs.
- ✓ Optimized the checkout process, reducing the steps required and improving usability.
- ✓ Boosted sales conversions by 25% through performance enhancements and UX improvements.

Declaration

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.
